TOMBSTONE GIRL DYING FROM MENINGITIS

Telephone services received from Bisbee are that Mrs. Bert Tomblinson, formerly Miss Olive Fowler, is not expected to live, and at four o'clock was unconscious. She contracted spinal meningitis last night and this morning it became apparent that she would not live through the day. Late this afternoon the physicians gave up and at four o'clock she was lingering between life and death.

Mrs. Tomblinson was formerly Miss Olive Fowler of Tombstone, having resided here for several years. The family later moved to Bisbee, where she married, and has resided there ever since. She has many friends in the Old Camp who will be sorry to hear of her illness and probable death.

FOUR STATES TO MEET DISCUSS GOOD ROADS

TEXAS, California, New Mexico and Arizona will join hands on May 15th, and 16th, at the Annual Meeting of the Arizona Good Roads Association, to compare notes on road building.

Highway engineers from all counties of Arizona will also meet in conference to aid in the proper and adequate development of highways which will do more than any other one thing to bring the proper recognition to the southwest. The representatives from the southwest are to discuss ways and means for securing good roads, and engineers from all parts of Arizona and officials from other states will be on hand to consider manner and methods of road construction and handling of road problems.

FIND DYNAMITE
 DEMING, N. M., May.—Two sticks of dynamite and a roll of fuse were discovered hidden behind a door in the armory building when the workmen returned to their work this morning, but so far, no clue has been discovered as to the persons or person who left it there nor his object in doing so. Contractor W. W. Barracks has no explanation to offer for the presence of the explosive in the building, and the sheriff's office refuses to give out information regarding the results of the investigations that are in progress.

LOOKING BACKWARD TWENTY-FOUR YEARS

Judge Duncan, who has been under the weather for the past week or two, is again around town.

Most of the delegates from Tombstone, to the Grand Lodge K. of P., at Bisbee, will return this evening.

Mr. and Mrs. Thomas York, whose bride's parents, was yesterday announced, will, in future, make their home at the Batterman ranch in Ramsey Canyon. The wedding which was solemnized by Chas. Granville Johnston, was a pretty affair. The ceremony was witnessed by a large number of friends and neighbors, who in unison wish the happy pair prosperity.

It may be safely estimated that six thousand dollars have been sent out of Tombstone alone during the past year, for the education away from home of children who are as yet unfitted to enter an average university, far above the average in the territory. Isn't it about time for somebody to do a little thinking on the subject of education for the masses in Arizona?

Tucson, it is said, now has a Keeley Institute, which fills a long felt want.

The saddest chapter in Tombstone's history of fire was finished this morning when the firemen who had hastened in answer to an alarm from engine house No. 1, rushed into the building only to rescue two lifeless bodies. At about 5 o'clock this morning flames were seen issuing from the residence of Sam Barrow, on Toughnut street, and the fire alarm quickly sounded. Meanwhile the unconscious family were fast asleep, little dreaming of the horrible fate so soon to overtake them. Half dazed with smoke and flames, which now seemed to envelope the whole house, Mr. Barrow succeeded in getting his wife, who had been ill for some time and one child to a place of safety when he realized that his little boy Sam, and Albert Blair, his wife's brother, were yet inside the burning building, and rushed frantically back to their rescue. Before he reached the house, however, Mr. B. Hattich had dashed fearlessly into the flames and barely escaping with his own life, brought out the lifeless body of little Sam, who had evidently perished from suffocation. Attention was also turned to the rescue of Albert Blair. An entrance was speedily effected through the wall of the house, and Frank Ryan was the first to rush in. Kneeling by the side of the bed, with clenched hands on which the flesh was burned to a crisp, and almost past all human semblance, was found the lifeless body of the young man. The origin of the fire is a complete mystery.

E. B. Gage has been appointed by the governor as delegate to the Second National Mining Congress to be held at Helena, Montana.

While there is life, there is hope, and the effort to revive the silver question at this session of Congress will be carefully watched by those most interested.

A high license law knocked out three saloons in Silver City last week.

President Harrison must derive rather cold comfort from the action of the recent state conventions.

James Haskins, an old timer in Tombstone, died last night and was buried this afternoon. He worked for T. A. Atchison as tinsmith for a number of years. He had been suffering of late with heart trouble.

The funeral of the unfortunate victims of the late fire, Sam Barrow, Jr., and Albert Blair, took place this morning from the undertaking parlors of C. B. Tarbell. The scene was a most affecting one. The floral offerings were profuse and appropriate to the surroundings. The bereaved parents have the sympathy of the entire community in their loss, which was shown by the almost universal attendance.

Billy Read, Tucson's show map, has been appointed County Fair Commissioner from Pima county. This is about the only line of business that has not had a show at the hands of the executive, and the Prospector hopes to see more attention paid them in future, now that the ice has been broken. By the way, Joe Bignon would make a good secretary for the territory.

Lynde, it will be remembered, left Douglas rather suddenly, after a demonstration had been made against him, on account of his furnishing certain testimony in some bootlegging cases being conducted there. It was believed at the time that he had "beat it" for El Paso, and a sharp lookout had been effected by the Sheriff and his deputies. TO ORGANIZE COCHISE COUNTY

Mrs. E. St. Clair Thompson, southern field secretary for the Congressional Woman Suffrage Union, left yesterday for Bisbee, after having spent several days in Tombstone consulting local leading women regarding the organization of Cochise county in furtherance of the Susan B. Anthony Amendment, which provides for the enfranchisement of all women. "The object of coming to the suffrage states is to enlist the aid of the voting women who by their political power, can effectively help the movement in passing congress," said Mrs. Thompson before leaving for Bisbee. "The meeting to formally launch a Women's Party is to be launched at a convention to be held at Chicago June 5, 6 and 7, and already 40,000 women are expected to be in attendance. Arizona women are responding wonderfully to the call of the women of the east who can never hope to be enfranchised except federally. It is very noticeable that the broad spirit of the West is entirely lacking in the East and in every suffrage state the women are lined up to give aid to the women of the east on their fight to secure enfranchisement," continued Mrs. Thompson.

The Congressional Union has many organizers in the field and every state and county down to the smallest precinct are to be organized. The chairman for the state of Arizona is Mrs. Wm. H. Sawtelle, of Tucson. Pima, Yuma, and Santa Cruz counties are already organized and Cochise county and other counties will follow. At an informal meeting the women of most desirable place for county headquarters.
